

About us and our ice cream ... we wish to source the best quality products as close to home as possible and our first step was to find an ice cream supplier who believed in the same ethos. So, our scooped ice cream producer is The Cowlick Creamery at Dawlish, about 9 miles along the coast. A small family of Artisan ice cream makers who use organic milk and cream from Riverford dairies and make our ice cream to order, sometimes delivering the very same day!

We love our space and hope that you do too - we're small, independent and dog friendly, creating treats and a happy space. Everything is available to eat in or take away. (Ve. = vegan option available).
